## PRODUCT INFORMATION

**CONNECTION RATINGS** (mandatory information):

a) **Stand lighting:** Spots, \_\_\_\_\_ items, \_\_\_\_\_ Watt, each  
 Spots, \_\_\_\_\_ items, \_\_\_\_\_ Watt, each  
 Spots, \_\_\_\_\_ items, \_\_\_\_\_ Watt, each

**b) Machines and devices** that will be put in operation:

230 Volt:	_____ items	_____ Watt, each
	_____ items	_____ Watt, each
400 Volt:	_____ items	_____ Watt, each
	_____ items	_____ Watt, each

c) **Basic input rating: 230 V/1800 W** (the stand rental price includes the provision of the basic electric power connection terminal with 230V/1800W, available from a type F socket. **Please check this box in any case:** **YES** ☐

**PLEASE NOTE: NO NIGHTTIME ELECTRICITY!**

**Power supply terms and conditions:**

Lighting and other electric power is supplied through a network with voltage ratings of 3 x 400/230 V. It is imperative for us to know well in advance what total connected rating you will be using. Otherwise the provision of electric energy to the extent you require cannot be guaranteed. Please let us point out explicitly that electric meter readers have to be installed in case the time of power consumption cannot be determined exactly. The exhibitor shall be liable for the provided lease meter readers until the time they will be removed. It is allowed to use officially calibrated on-site meter readers, if available. If no meter readers are used, the price will be calculated on a lump-sum basis. In this case, the exhibitor is obligated to grant access to persons officially assigned by the trade-fair management to record all power consumers at the trade-fair stand.

After the end of the daily trade-fair hours as well as after the end of the entire trade-fair event, all electric circuits of all electric systems at the trade-fair stands must be turned off (with the exception of any special power consumers reported in advance, such as e.g. refrigerators and freezers) by switching off the circuit breaker. They might also be disconnected by the trade-fair electrician without any special prior notification.

The current power consumption net rate, subject to any general price adjustment, is €0.65 per kWh (plus 20% VAT). The minimum total net rate is €20 ---.

We accept the above terms and conditions.

## ELECTRIC INSTALLATIONS

	Connect and test OWN DISTRIBUTION BOARD up to 3 kW (lease meter reader is required)		€50.--
	Connect and test OWN DISTRIBUTION BOARD up to 6 kW (lease meter reader is required)		€112.--
	Connect and test OWN DISTRIBUTION BOARD up to 20 kW (lease meter reader is required)		€207.--
	Connect and test OWN DISTRIBUTION BOARD up to 40 kW and/or CEE 5/63A connection terminal (lease meter reader is required)		€292.--
	LEASE METER READER including connection work (only for own distribution boards)		€43.--
	NORMAL CONNECTION 230V up to 3 kW with lease meter reader, ground-fault circuit interrupter, automatic circuit breaker, type F socket, power feed and lease meter reader including installation and removal		€106.--
	NORMAL CONNECTION 3 x 400/230V up to 9 kW with lease meter reader, ground-fault circuit interrupter, automatic circuit breaker, CEE heavy-duty power socket, type F socket, power feed and lease meter reader including installation and removal		€278.--
	NORMAL CONNECTION 3 x 400/230V up to 9 kW with lease meter reader, ground-fault circuit interrupter, automatic circuit breaker, CEE heavy-duty power socket, type F socket, power feed and lease meter reader including installation and removal		€424.--
	NORMAL CONNECTION 3 x 400/230V up to 9 kW with lease meter reader, ground-fault circuit interrupter, automatic circuit breaker, CEE heavy-duty power socket, type F socket, power feed and lease meter reader including installation and removal		€525.--
	Additional SOCKET(S) for 230V up to 10 meters		€33.--
	Additional SOCKET(S) for 400V/16A up to 10 meters		€45.--
	Additional SOCKET(S) for 400V/32A up to 10 meters		€57.--
	Table distribution board, 3-fold 230V		€15.--
	LEASE SPOT with reflector lamp including power line		€41.--
	LED LEASE SPOT 10W including power line		€42.--
	LED LEASE FLOODLIGHT 50W including power line		€61.--
	LEASE REFRIGERATOR 150 litres		€68.--
	LEASE REFRIGERATOR 260 litres		€93.--
	LEASE FEED LINE 5x2,5mm <sup>2</sup> up to 10 meters		€13.--
	LEASE FEED LINE 5x6mm <sup>2</sup> up to 10 meters		€16.--
	LEASE FEED LINE 5x10mm <sup>2</sup> up to 10 meters		€25.--
	FORCE-ACCOUNT WORK (installation own material, fault repair work at exhibitor etc.)		78.-- /HR
